SUMMARY

Hello, my name is Duong.

I have 3 years of experience in software development with Python.

My expertise is in web development, and I have worked with several web frameworks such as Django, FastAPI, and Flask.

I have used the AWS and Docker, and have developed web applications on serverless platforms.

My strengths are my ability to learn quickly and adapt to new technologies. Therefore, I can work on projects in other languages and frameworks, as well as data-related projects.

I hope that I can become a valuable member of your company.
